Standard and available features, refer to model specifications.

Leave it to Jeep® Grand Cherokee to deliver this unique brand of hand-hewn character in a modern package that's altogether uncompromising. This is where new meets old and the most beautiful of adventures begin.

GRAND CHEROKEE. Premium, world-class Jeep® brand capability seamlessly infused with top-of-the-line luxuries and refinements.

KEYLESS ENTER-N-GO.

Live, ride, and drive key-free. This new technology automatically unlocks doors when you pull the handle, letting you keep your focus on more important things, rather than fumbling for a key fob. Once inside, a simple press of the Start/Stop button and brake pedal brings Grand Cherokee's engine to life, and you're instantly prepared for departure.

REAR SEAT DVD. Entertainment abounds with this console-mounted DVD player with overhead LCD display, wireless remote control, and two wireless headsets. It plays DVDs, CDs, and MP3 discs, as well as connects to video cameras, video games, and MP3 players. Speakers may play audio from the AM/FM radio or CD player while headphones play DVD audio. (Standard on Limited & Overland)

DUAL ZONE CLIMATE CONTROL. Make the air up there just right when you set it to AUTO mode. This self-adjusting temperature-control system dehumidifies incoming air for added comfort. This helps reduce condensation build-up on the windshield and side windows.

GARMIN® NAVIGATION. Uconnect® radio featuring GPS Navigation from Garmon, the name recognised by drivers globally as the dependable must have navigation tool. The new radio features Garmon's intuitive interface, and brings the Garmon consumer experience to a factory in-dash radio. (Standard on Limited & Overland)

ALPINE® SURROUND SOUND SYSTEM.

Step into your own personal sound stage for a realistic concert experience. Alpine's premium audio system utilises a high-powered 12-channel, 506-watt amplifier powering nine speakers and a subwoofer optimally placed throughout the cabin. Two 25-mm silk dome tweeters bookend a 3.5-inch centre-channel speaker at the front of your cabin. Two 6 x 9-inch premium cone speakers are within the front doors and two 6.5-inch premium speakers are within the rear doors, pushing sound toward the centre of the cabin. Two 2.5-inch imaging surround speakers and 8-inch dual voice coil subwoofer send clean sound from the rear. (Standard on Limited & Overland)

◀ **MORE CARGO ROOM.**

With 782L of cargo volume behind the second-row seats, Grand Cherokee lets you take your adventure gear, along with five passengers, to places known and unknown. When it's time for moving the big things in life, fold down the rear seats to have access to 1554L of free space.

EFFORTLESS ACCESS. ▶

Designed for beauty as well as ultimate utility, the all-new power liftgate adds graceful accessibility to Grand Cherokee's rear cargo area. Keyless Enter-N-Go is hands-free via the key fob, so you can keep hold of what's in your hands without fumbling to unlock the gate. Rear visibility is improved via a significantly larger flipper glass panel with rear wiper.

Jeep® Grand Cherokee. Redefines the ascent. It's about being polite and powerful within the confines of every incredible instant. Grand Cherokee's power plants, each infused with Variable Valve Timing (VVT), may speak quietly, but they always command a great deal of respect.

3.6L V6 PENTASTAR™ ENGINE. All-new and engineered equally for fuel efficiency, horsepower, and refinement. The Pentastar™ engine makes the most of its dual overhead cams (DOHC) and Variable Valve Timing (VVT) to deliver optimum combustion efficiency over the full speed and load ranges. Translation: it excels its predecessor by providing an increase of 28 percent in power (210 KW) and 11 percent in torque (347 Nm) with a very appealing 10 percent improvement in extra-urban fuel economy. (Available on Laredo only) (Limited availability)

3.0L DIESEL TURBO 6-CYLINDER ENGINE. The advanced technology of the 3.0 V6 CRD engine combines 177 KW and 550 Nm of torque with fuel-saving economy that work in harmony to keep you going far between fill-ups. A Variable Geometry Turbocharger and an integrated diesel particulate filter help reduce fuel consumption and exhaust emissions.

5.7L V8 ENGINE WITH MDS AND VVT. This available workhorse is strong enough to tow up to 3,500 kg,(10) with a Multi-Displacement System (MDS) that revamps your eight-cylinder, 259 KW brute during cruising speeds, turning it into a four-cylinder model of efficiency. When you want full action, step on the pedal and all eight cylinders roar to life, delivering full 520 Nm of torque and power upon request. Variable Valve Timing (VVT) contributes to better fuel economy. (Available on Limited & Overland only) (Limited availability)

LAREDO FEATURES

Jeep® Grand Cherokee Laredo combines world-class finery and capability into one very attractive package.

STANDARD

- > Laredo badge on liftgate
- > 3.0 V6 Turbo CRD engine
- > Quadra-Trac II® 4WD system
- > Selec-Terrain™ traction control system
- > Electronic Stability Control (ESC)⁽²⁾

Safety & Security Features

- > ACTIVE HEAD RESTRAINTS⁽⁶⁾ — In the event of a rear collision, these restraints help to reduce the chance of injury for front occupants.
- > ADAPTIVE CRUISE CONTROL (ACC)⁽⁴⁾ — Automatically adjusts cruising speed to maintain a preset distance between your vehicle and the one ahead (Overland only).
- > AIR BAGS⁽⁷⁾ — Advanced multistage, full-length side-curtain, driver inflatable knee blocker, and seat-mounted side thorax air bag.
- > ANTILOCK BRAKE SYSTEM (ABS) — Prevents wheel lock up and offers improved steering when under extreme conditions. Rough road detection feature aids braking operation when traveling over off-road surfaces or trails.
- > BLIND SPOT MONITORING (BSM)⁽¹⁾ — Dual radar sensors constantly monitor driver blind spots, providing notification of an encroaching vehicle via illuminating icons on sideview mirror and an audible chime. (Overland only)
- > ELECTRONIC STABILITY CONTROL (ESC)⁽²⁾ — A network of sensors enhances driver control and helps maintain vehicle stability at all times, over all terrain. Robust system includes Electronic Roll Mitigation (ERM), antilock brake system (ABS) and Brake Assist, all-speed traction control, and Trailer Sway Control (TSC).
- > FORWARD COLLISION WARNING (FCW)⁽⁵⁾ — Radar sensors detect when vehicle may be approaching another too rapidly, alerting driver with an audible chime (Overland only).
- > HILL DESCENT CONTROL (HDC) AND HILL START ASSIST (HSA) — These brake control systems help to provide smooth and controlled uphill and downhill climbs.
- > KEYLESS ENTER-N-GO — Upon entry, electronic sensors detect the presence of key fob unique to the vehicle and allow driver to push “Go” button to start ignition.
- > PASSIVE ENTRY — Sensors in key fob automatically unlock vehicle and allow entry without having to fumble for key ring.
- > RAIN BRAKE SUPPORT — During rainy conditions, helps keep brake rotors dry, allowing optimal brake operation.

- > RAIN-SENSING WIPER SYSTEM — Sensors automatically detect moisture on windshield and activate wipers.
- > REAR BACK-UP CAMERA⁽³⁾ — Provides a wide-angle view on NAV screen of the area behind vehicle (Limited & Overland only).
- > REAR CROSS-PATH DETECTION⁽⁶⁾ — When in Reverse, warns driver with an audible chime when cross-traffic is approaching vehicle (Overland only).
- > FRONT & REAR PARK ASSIST SYSTEM⁽³⁾ — Sensors detect the presence of objects in pathway and provide an audible warning (Limited & Overland only).
- > SENTRY KEY[®] ENGINE IMMOBILIZER — Vehicle is prevented from starting unless key fob containing a unique, embedded code is present.
- > SMARTBEAM™ HEADLAMPS — Brighter, better, safer. Bi-Xenon High-Intensity Discharge (HID) headlamps with headlamp washers shine up to three times brighter than regular headlamps. Available auto-leveling keeps lamps focused down at the road ahead.
- > TYRE PRESSURE MONITORING — Pressure sensors in tyre valves allow for automatic detection and notification when tyre pressure is low.
- > TRAILER SWAY CONTROL (TSC)⁽²⁾ — Improves handling in adverse conditions by automatically applying appropriate braking action to counteract swaying motion of trailer.
- > ENHANCED ACCIDENT RESPONSE SYSTEM (EARS) — Turns on interior lighting, unlocks doors and shuts off fuel when airbags deploy.
- > READY ALERT BRAKING — Recognises driver's maximum brake application and will apply additional brake pressure to help shorten the stopping distance.
- > ELECTRONIC ROLL MITIGATION (ERM) — If the system senses a potential rollover, it will apply the brakes and modulate the throttle as needed to help you maintain control.

STAY CONNECTED. Grand Cherokee comes standard with Uconnect[®] to help stay in touch with the people, music, and devices that matter most. It acts as the hub for your most important media — cell phone, navigation system, personal devices such as an iPod[®] or smartphone. The Uconnect user-friendly systems are designed to make your life easier, wherever you roam.

PHONE. Talking on the phone while driving has never been easier — or more responsible. Uconnect Phone is the in-vehicle, voice-activated communication system that allows you to pair up to seven Bluetooth[®] compatible phones and then talk virtually hands-free. This system is also clever enough to synchronize with your phone's address book⁽⁹⁾ — up to 1,000 entries — every time you get into your vehicle. Audible text messaging offers instant — and safe — text communication.

VOICE COMMAND. It simplifies driving by letting you keep your eyes on the road and your hands on the wheel. Vocally select radio stations, make and receive calls, select navigation destinations, and record voice memos. This smart system technology can also be trained to better recognize your voice and can understand commands in Dutch, English, French, German, Italian, and Spanish.

ENTERTAINMENT. Manage all of your media. You'll have six ways to access audio, including a 40GB hard drive built into the radio. And iPod Control with Voice Command and Bluetooth[®] streaming audio, which allows you to play digital audio files stored in your mobile device through the vehicle's speakers. Rear seat video can be accessed through DVDs, compatible multimedia devices, and gaming consoles (Limited & Overland only).

NAVIGATION. Provides turn-by-turn guidance by voice command and visual display. It can also locate nearby restaurants, shopping, hospitals, or points of local interest. With Traffic Message Channel, you'll receive traffic updates that include road closures, accidents, and traffic flow reports, allowing you to take the road less traveled (Limited & Overland only).

Four-Wheel-Drive Systems

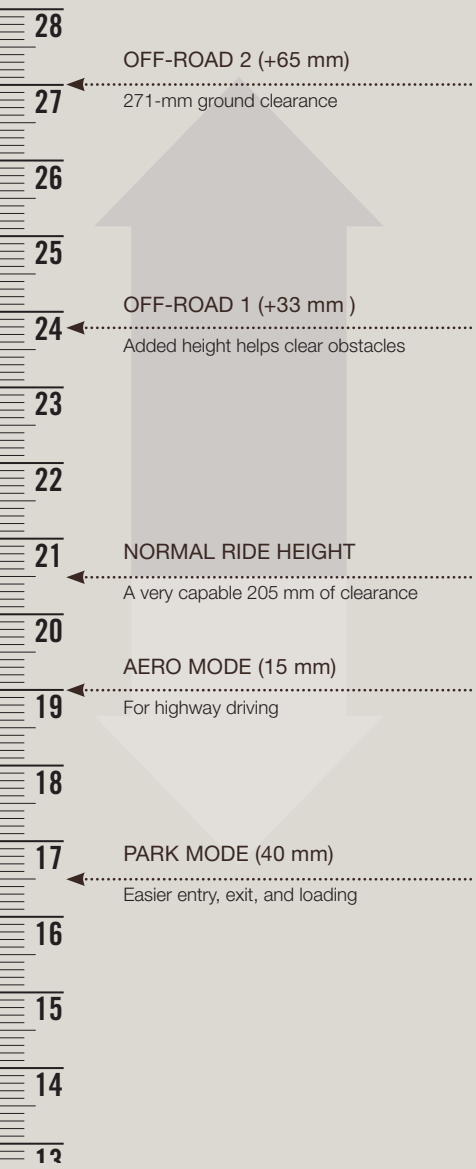

QUADRA-TRAC II® NV245 Active full-time; 2-speed with low range (2.72:1) and Neutral, variable with 48/52 front/rear default torque split, electronically controlled clutch pack coupling in centre differential and open front/rear differentials (Standard on Laredo & Limited)

QUADRA-DRIVE® II NV245 Active full-time; 2-speed with low range (2.72:1) and Neutral, variable with 48/52 front/rear default torque split, electronically controlled clutch pack coupling in centre differential and rear Electronic Limited-Slip Differential (Standard on Overland, optional package on Limited)

Quadra-Lift™ Air Suspension (Limited & Overland only)

This closed-type air suspension system lifts you up to master the road ahead, allowing you to adjust your vehicle's suspension lift, thus augmenting your vehicle's capabilities far faster than open-type systems. The Quadra-Lift adds up to 104 mm of lift, supported by four-corner air springs that help provide a cushioned, luxurious ride. Better yet: you control this ingenious system with the push of a button to match vehicle lift to the driver's needs. Welcome to a world that is far above and beyond the everyday.

Selec-Terrain™ Capability Control

With an easy turn of a dial, your Grand Cherokee's traction control is adjusted to match the driving conditions facing you on the road ahead. Whether you're caught amid city streets covered in snow or climbing backcountry hills, Selec-Terrain gives you the confidence to bravely meet all challenges. Five selectable settings electronically coordinate up to 12 of Grand Cherokee's powertrain, braking and suspension systems. Coupled with the available and all-new four-corner Quadra-Lift, and you'll be at the forefront of off-road performance.

SPORT: Enhances on-road fun-to-drive capability.

SNOW: Adjusts for ultimate performance over snow-covered roads.

AUTO: Automatically adapts to any on- or off-road situation.

SAND/MUD: Traction control operates with aggressive response to wheel spin. The suspension raises for optimal performance.

ROCK: Quadra-Lift suspension raises to maximum height, and the transfer case, differential, and throttle coordinate to provide low-speed control.

POWERTRAIN

Engine	3.6 L V6 Pentastar	3.0 V6 CRD	5.7 V8 with MDS and VVT
Displacement (cu cm)	3604	2987	5654
Power (KW @ RPM)	210 @ 6350	177 @ 3600	259 @ 5200
Torque (Nm)	347 @ 4300	550 @ 1800	520 @ 4200
Axle Ratio	3.47:1	3.47:1	3.47:1

Fuel System Sequential multipoint electronic fuel injection.

Variable Valve Timing (VVT) VVT offers increased engine breathing throughout the rpm range by varying the degree that the valves open and close in conjunction with the piston position. Results are tangible: better performance, more efficient operation and increased torque for towing and hauling.

Multi-Displacement System (MDS) Deactivates 4 cylinders (1, 4, 6, and 7) during steady speed cruising, low-acceleration and shallow-grade climbing conditions (5.7 V8).

Transmission 5-speed automatic with Electronic Range Select, adaptive electronic control, Brake-Park Interlock and electronically modulated torque converter (3.0 CRD); multispeed automatic with 5 forward speeds, alternate second gear, Tow/Haul feature, Brake-Park Interlock and electronically modulated torque converter (5.7 V8).

⁽¹⁾Always check entire surroundings visually before backing up. ⁽²⁾No system, no matter how sophisticated, can repeal the laws of physics or overcome careless driving actions. Performance is limited by available traction, which snow, ice, and other conditions can affect. When the ESC warning lamp flashes, the driver needs to use less throttle and adapt speed and driving behavior to prevailing road conditions. Always drive carefully, consistent with conditions. Always wear your seat belt. ⁽³⁾Always check entire surroundings before backing up. ⁽⁴⁾Late availability. ACC is a driver convenience system, not a substitute for active driver involvement. The driver must remain aware of traffic conditions and be prepared to use brakes to avoid collisions. ⁽⁵⁾Late availability. FCW system is solely an alert system for the front of the vehicle which does not take any actions to change vehicle dynamics to avoid collision, not a substitute for active driver involvement. The driver must remain aware of traffic conditions and be prepared to use brakes to avoid collisions. ⁽⁶⁾Always sit properly with the head restraint properly adjusted. Never place anything in front of the head restraint. ⁽⁷⁾The advanced front air bags in this vehicle are certified to the new U.S. federal regulations for advanced air bags. Children 12 years old and younger should always ride buckled up in a rear seat. Infants in rear-facing child restraints should never ride in the front seat of a vehicle with a passenger front air bag. All occupants should always wear their lap and shoulder belts properly. ⁽⁸⁾Always check visually for vehicles prior to changing lanes. ⁽⁹⁾Late availability. ⁽¹⁰⁾When equipped with available Trailer Tow Prep Group.
